**Scan a Math Problem for Instant Help**

Photomath reads and solves mathematical problems instantly by using the camera of your mobile device. Check your work for any printed or handwritten problems.

**Get Step-by-Step Explanations**

Learn how to approach math problems through clear steps and detailed instructions. You can even choose between multiple explanation methods for some problems.

**View Animated Instructions**

Photomath shows beautifully animated calculation steps, just like a teacher or tutor would do in real life on a chalkboard.
